

Netflix recommender project call

1st July 2021

Present: Michael Hoang (MH), Rucha Sharma (RS), Vivek Kotecha (VK)

Progress

MH: Good update and support from Nitesh and Dataquest team.
Now just a matter of getting content out there.

RS: completed tier 1 analysis.

Next steps

Dashboard for tier 2 – plots summarising project with more interactive elements. Maybe do a deep dive of an aspect of the data e.g. actors.

RS: to write up first draft of Python intro article

VK, RS: Not worked on categorical ML data training

RS: Done numerical ML via Dataquest and other websites.

MH: Use a correlation matrix.

Tier 3 write up – be honest about challenges and dead-ends for moral support.

VK: to review Rucha's Tier 1

VK: To write up for Tier 2

Timing

Mike's 2 articles launched first. Aim for first on w/c July 12th

About a month until first Python needed. So around August 12th.

Aim to be working on tier 3 by August 12th to give time for more technical ML.

19th July – Tier 1 R article, start work on Tier 2

VK and RS: meeting on w/c 5th July to discuss VK feedback on RS's python project and write up of Tier 1

Next group meeting: Thursday 22nd July
